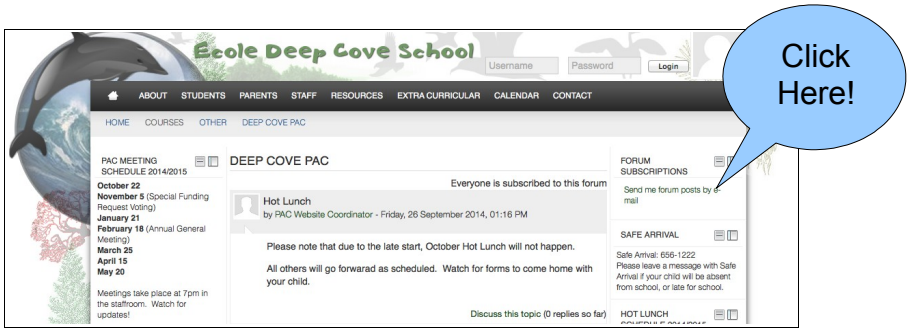
You may be thinking...
People are asking for my email – why?
This is simply so the school and PAC can get information to you.

If you're wondering why you need to do it in two places, it's because the school sends different information to you than the PAC will. The school asks you for your email address so updates to that page can be sent to you via email, but we still need your permission to send you updates from the PAC page!

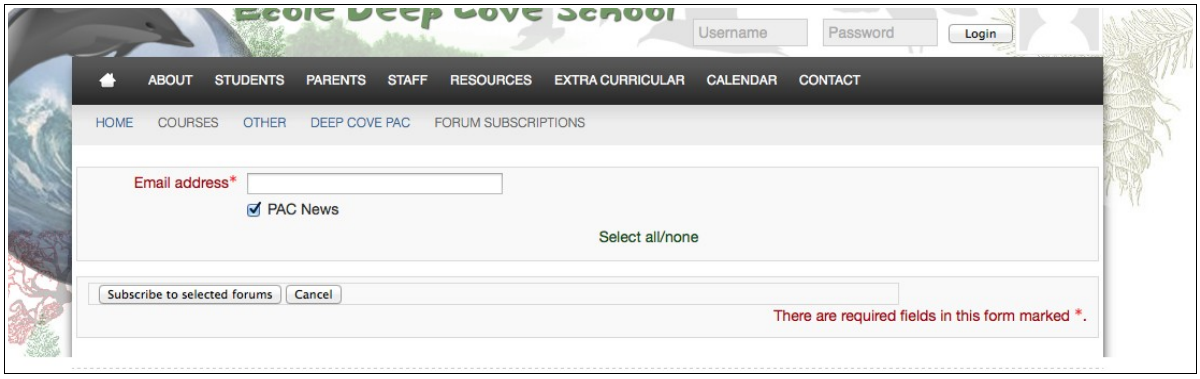
Some of this information will overlap, but we'd rather you keep informed.

This is simple and with the new anti-spam law in effect, we can not automatically add you to the PAC email subscription list – you need to click the option to allow us to!

Here is how simple it is:
Head on over to **http://deepcove.sd63.bc.ca**
Once there, “mouse over” where it says “Parents”. Click where it says PAC Page. It will bing you to a similar looking screen containing PAC information. Follow these simple steps:



You will be brought to another page giving you the option to fill out your email address:



Go ahead and fill it out and click “Subscribe to selected forums”.

Just like that, you will receive the updates the PAC posts to the webpage.

Should you choose not to subscribe you will not be notified by email when the PAC webpage is updated, it will be your responsibility to check the site.

We do our best to send out hard copies of all correspondence through your child's teacher, but we are aware that not all of those papers make it home.
