

Parent Education Role

The PAC Executive is made up of numerous roles, one of which is Parent Education. In the past, the focus of this role was to provide parents and caregivers with educational opportunities through workshops and presentations either facilitated onsite within the school itself or within the larger community. In an effort to become more effective and reach more families, the role has undergone an evolution.

We will continue to focus on education and notify parents and caregivers of any upcoming workshops and learning opportunities, as well as continuing to stock the School Library with current materials, however, the Parent Ed. Role will now include:

1. connecting one on one with our brand new families
2. reaching out to our current families
3. referral to community resources
4. fielding concerns and questions

Kim Bull-Chambers has been in the position for the last 4 years and will continue to stay on during Mikiala Christie's transition into the role.

Please help us support you better by letting us know what the best way is to reach you. We will try to connect with as many parents as possible via email, newsletters and person to person contact.

We look forward to meeting you and continuing the spirit of community at Deep Cove School!
