

NAVY LEAGUE | *Oceans of Opportunity*

If you are between the ages of 9 and 12, Navy League Cadets get to do a lot of fun and interesting activities in an environment that emphasizes teamwork. Our cadet program uses a Naval theme as a platform to develop patriotism, good citizenship, a sense of duty, self-discipline and respect for others. Cadet training occurs in a highly structured environment that fosters the development of self-discipline, organization, leadership and teamwork. These traits will help your child become successful in whatever they would like to do later in life. The Navy League Cadet Program is a great place to make friends and do things you wouldn't get to do anywhere else.

What do Navy League Cadets do? The Navy League Cadet program is designed to offer activities that are both fun and educational. As a Navy League Cadet, your child will get the opportunity to:

- learn about boating and water safety
- go camping
- participate in parades and community events
- play sports
- learn knot tying, communications and other seamanship skills
- go on citizenship tours and other trips

Some corps even offer a music program! While fees vary between Corps no child is ever excluded from participating due to means. To make this possible, cadets are expected to participate in fundraising activities. Participating in fundraising develops responsibility, community spirit, and work ethic in the cadets.
